the northeast of the southwest of 32-ln-8w, and will try to rerun casion and recement. The hole has been drilled to a total depth of 2,054 feet.

The No. 1 Speers of Smith Brothers, located in the southeast corner of the northwest of the northwest of the northwest of the southwest of the northwest of the northw

In-Sw, is shut down for cable tools swig before you pay him for the to drill in at 2,026 feet.

The No. 1 Morgan of the National deal is closed.

Tickler Dope From New York Tickler Dope From New York.
Figures of the Sinclair Consolidated Oil company and its submidiaries for the year ended December 31,
1920, are surprisingly good, indeed,
it was declared that notwithstanding
any stock market disappointment to
the shareholders who invested at
from 40 to 50, Sinclair is making
good browning and estimate from of 33-in-8w, is shut down for cable tools to drill in at 1.972 feet. The No. 1 Brown of the Gypsy Oil Ash Brothers are cementing casing at 2,005 feet in their No. 1 the formas, located in the northeast corner of the southwest of the southeast of 25-ln-9w.

The Gypsy Oil company is cementing casing on top of sand at the south the southwest of th menting easing on top of sand at 2,021 feet in its No. I Thomas, locatits neighbors are making with it. Standard Oil people do not buy into a pipe line at cost that another com-pany has built unless there is full 1n-9w.

Dancigar and others Not 1 School
located in the northwest corner of
the southeast of 36-1n-9w, is running five-inch the at a total depth
operation. Sinclair may now be set of 2.800 feet to test out sand.

In the northeast corner of 36In 39, the No. 1 School of Hivick 335.80,000, which after allowance and others found sand from 2.015 for interest, discounts and estimated to 2.024 feet and has all the indications of making a big well when completed. They are dementing casing at present.

Gant & Parsons No. 1 Leonard, lecated in the northeast corner of the southeast of 6-18-8w, which found a thin stratum of sand from 1.999 to claris operation, Sinclair may now be set down as earning \$3,00,000 a month. Not for the calendar year 1920 was 235.80,000, which after allowance for interest, discounts and estimated to 250,288,200 available for surplus and reservest. These that the recent decline in crude oil is advantageous to refining and market ing companies and it can be easily figured that the major item in Sinclair operation, in a group was a carning \$3,00,000 a month.

southeast of 6-is-8w, which found a thin stratum of sand from 1,999 to 2,004 feet, is now shut down for cable tools at a total depth of 2,006 feet. It will probably make 20 barrels per day from the present show, but most likely will be drilled deeper.

The Carter Oil company found a salt water sand in its No. 1 Gerdes, located in the southwest corner of the northwest of 8-ls-8w. The sand was found from 2,117 to 2,124 feet.

The Carter Oil company found a salt water sand in its No. 1 Gerdes, located in the southwest corner of the northwest of 8-ls-8w. The sand was found from 2,117 to 2,124 feet.

casinghead plants, pipe lines, \$35, 000,006 including Mexico. Market-ing facilities, distributing stations, etc., (\$18,000,000) marine equip-ment \$17,000,000 and tank cars \$10,-

000,000. It is to the above \$120,000,000 representing manufacturing and merchandising is added the company's billings, its coal mines, explorations, and niscellaneous developments, the fotal would be \$140,005,000.

The balance of \$97,000,000 may be called finance of which \$10,000,000 are advances to affiliated content and \$20,000,000 working capital. In the working capital cash is \$12,000,000, receivables \$12,000,000 and in vertories \$47,000,000. The remarkable financial are

tation in the company's annual fig-ures is this exhibit of working cap-ital fully covering the company's indebtedness of any kind, including all its mortgages and its \$50,000,000 five-year 7 is per cent notes. It will require another article to deal with the expansion program of Sin-clair Oil, which now has its grip and foundation on oil in the United foundation on oil in the United States, Chicago to the gulf, a large footing in Mexico and great possi-

With the Oil Men

E. 1. Morehead, formerly associated with the Canadian Oil & Gas Co., John Steele's old concern, has been spending several weeks in Tulsa with his old friends and finds the town compares very favorably with Los Angeles, where he has been living for the last four years. He may that his father-in-law, M. H. Mosier, has his orange, lemon and grapefruit ranch bearing for the first time, and that the fruit is of exceptional quality. He says that freight rates have hurt the business tremendously and all of the fruit growers are complaining about low prices, caused by higher freight rates. "They have shipped from California one boat load via Panama Camal to Baltimore and it arrived in good shape. This will remedy in good shape. This will remedy the matter of freight rates if the service can be kept going," said Mr. Morehead.
